

Toronto Visitor Guide

Dalton Pharma Services
349 Wildcat Road
Toronto, ON, M3J 2S3
416-661-2102

To help assist in making your stay in Toronto a pleasant one we have assembled this Visitor Guide to outline places to stay, eat and visit while you're in town. We would be happy to provide assistance in planning your stay in Toronto. Please contact our receptionist at 416-661-2102.

Toronto's Skyline – featuring CN Tower and Skydome

Dalton Pharma Services provides contract research and manufacturing services to help companies accelerate their drug discovery and development programs.

We provide chemistry support in the area of custom synthesis, process R&D, scale up and hit-to-lead synthesis including medicinal chemistry with the objective of shortening drug development timelines. We are strong in small molecule, manufacture of Active Pharmaceutical Ingredients (API) under cGMP with scales ranging from mg to small kilos.

Adding sterile liquid fill to our list of services gives Dalton a competitive edge. Dalton has effectively carried out sterile liquid fills for several clients for Phase I and II clinical products, with vial sizes ranging from 2ml to 125ml. We have successfully taken a number of products from Preclinical to Phase II and are currently manufacturing two Phase III products at our facility. Our combination of API and sterile fill is unique and can save many months of development time for our clients. Dalton has a Controlled Substance Licence from OCS as well as a Site Establishment Licence for drug manufacture and testing from Health Canada.
